

Dimethyl succinate

English name: Dimethyl succinate

Chinese alias: dimethyl succinate

CAS No. : 106-65-0

EINECS No. : 203-419-9

Subsize: 146.1412

Uses: Used in the synthesis of light stabilizers, high-grade coatings, additives, organic solvents, fungicides, is a very important pharmaceutical intermediates.

Reference index:

index	specification
appearance	Colorless transparent liquid
Content %	99.5 min
Acid value (mg KOH/g)	0.1 max
Color number (APHA)	15 max
Moisture %	0.1 max
Density (20°C) g/mL	1.105-1.125

Packing: 200kg drum, container, container, liquid bag
