## Water-based wetting dispersant

### RD-9209

#### Features and advantages:

- 1, prevent pigment flocculation, increase the storage stability of the system.
- 2, improve luster, coloring power, reduce viscosity.
3. It is especially suitable for the dispersion of carbon black in non-resin system.
- 4, does not contain alkyl phenol polyoxyethylene ether.

#### Product specifications:

appearance	Light yellow transparent liquid
Effective ingredients	80%
Water dispersible	Soluble in water
composition	Hydrophilic polymer containing pigment affinity groups

**Application scope:**Water-based paint water-based ink  
water-based paste

**Recommended dosage:**It is recommended to dissolve dispersant completely in grinding medium before adding pigment to grind.  
Add to organic pigment: 4-12%, add to carbon black: 10-30%

**Packing:** 25KG non-recycled blue plastic drum. The product is not completely used, need to tighten the lid after use.

**Storage:** keep away from fire and light source and keep away from light
